

STORE4HUC

INTEGRATION OF ENERGY STORAGE SYSTEMS FOR RES HEATING
AND ELECTRICITY PRODUCTION IN CENTRAL EUROPE REGION

Webinar

23.06.2021

Location: online - via ZOOM: [Click here for the link](#)

The webinar will be in English language.

10:30 - 10:35	Arrival	
10:35	Store4HUC Introduction	Katja Karba, Development agency Sinergija (SI)
10:45	Pilot: Paraffin based latent storage in connection with geothermal district heating system in Lendava, Slovenia	Štefan Žohar, Development agency Sinergija (SI)
11:05	Pilot: Central thermal energy storage tank in connection with decentralized hot water storage tanks in Weiz, Austria	Andrea Dornhofer, Weizer Energie-Innovations-Zentrum GmbH (AT)
11:25	Pilot: Slope Elevator - the realization of a new system for the production and storage of electrical power in Cuneo, Italy	Elisa Marino, City of Cuneo (IT)
11:45	Pilot: Central battery (bank) system, Installation of PV system and integration of it to advanced Energy management system in Bračak Manor, Croatia	Matija Hrupački, North-West Croatia Regional Energy Agency (HR)
12:05	Finish
